

Hi Everyone,

Me and my friend are members of a hiking group. My friend is a professional hiking guide and we are considering setting up a series of hiking events for those who do not speak Hungarian and would like to socialize. Native English speakers are most welcome.

The hikes last for a day and will be mainly near Budapest in the beginning, with a little tourist guiding and are free of charge. It is to enjoy nice weather in the woods, do a little bit a sport and make friends.

The first event is scheduled for a Sunday in April.

If you or any of your friends or family members are interested, please let us know.

My private email address is pboglarka@hotmail.com, please use this email address for your response. Thank you.

It would be fantastic if you could let me know how experienced you are and how many miles you can hike.

Our first hike will take place on 30 April, 2016. It is a Saturday at this point.

See you soon  
in your boots!

Boglárka
